in the heart of Yorkshire where we
hand make your doors to the finest
of standards...

Why choose a Deuren Entrance door?

Deuren handcrafts high-quality doors inspired by unique design and innovative features right here in the UK.

We will guide and assist you through every step of the process from design to survey and from manufacturing to installation.

Every Deuren door is made, finished and prepped for installation in our Yorkshire-based factory. Visit us and we'll talk you through every stage of the manufacture – and let you see it in action before giving you inspiration for your door set in our expansive showroom.

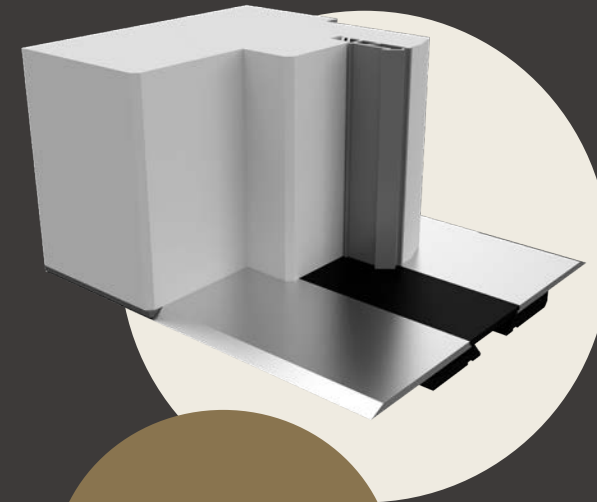

Being entirely UK-based means we can offer an extremely high level of attention to detail, flexibility and quality control in your doors.

Made In Britain

We are proud members of the Made in Britain scheme, a huge focus on sustainability and greener ways of working – across all sectors, not just manufacturing – has meant much change and opened new prospects. UK manufacturing is great for businesses and consumers alike. Keeping everything on British soil means we're benefiting from a reduced transportation cost and carbon footprint as the product has fewer miles to travel.

TECH SPECS

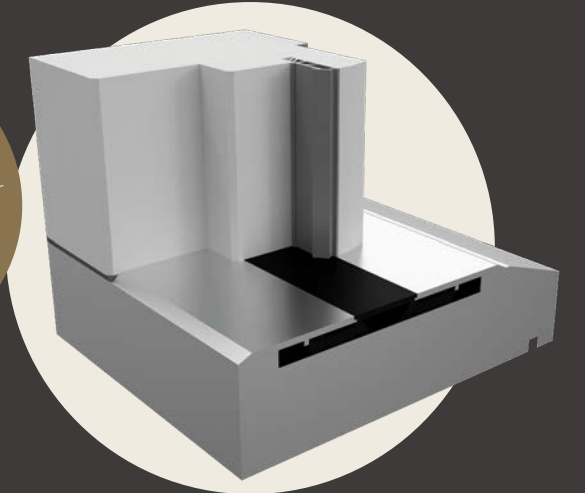

Deuren concealed 3D adjustable hinges make for easy adjustments without removing the door leaf.

We combine intricate design and stunning craftsmanship to create bespoke contemporary front doors – and your choice in handles is as important as the door itself. The two should complement each other as well as remain loyal to the style throughout the rest of your home. Whether you'd like to stick closely to the elegance and simplicity of your interior design or envisage a detailed statement piece, we have an extensive collection of luxury front door handles to suit all requirements. We work with some of the UK and Europe's leading manufacturers to ensure the highest standards are maintained across every door and handle.

Compatible with home automation systems Deuren entrance doors can be provided with a variety of electronic controls, including fingerprint recognition and digital key pads.

Designs.

Tavole

Deep lines carved into the face of this contemporary door are individually placed in deliberately unsystematic positions as a random block effect creating an eye-catching, bold statement entrance door.

Piano

Uneven, randomly positioned vertically carved lines give our Piano entrance door a genuinely unique appearance. With no two doors the same these striking full length 'keys' create an eye-catching, dramatic effect.

Tegal

Geometrically stepped grooves sweep the face of our Tegal entrance doors creating an art-deco inspired door . Available with our chunky handmade stainless steel inlays creating a finished, high-end feel.

Versare

Versare is made up of a simple pattern of lines, containing horizontal and vertical grains, the grooves are criss-crossed creating a gridded parallel effect. Versare is a contemporary in design and has the option of an additional stainless steel insert dropped into each of the grooves, offering a more modern personality.

Pichola

A simple design at heart, our Pichola doors are made up of either horizontal or vertical evenly spaced grooves. Available with or without our stainless steel handle plate, let our Pichola entrance door complete your contemporary home.

Ness

A two-tone, fully customisable design divided into a two to one ratio, Ness is split by a contemporary stainless steel inlay, this allows us to use a range of various painted finishes which work together to contrast one and other.

Available in Exclusive Finish *

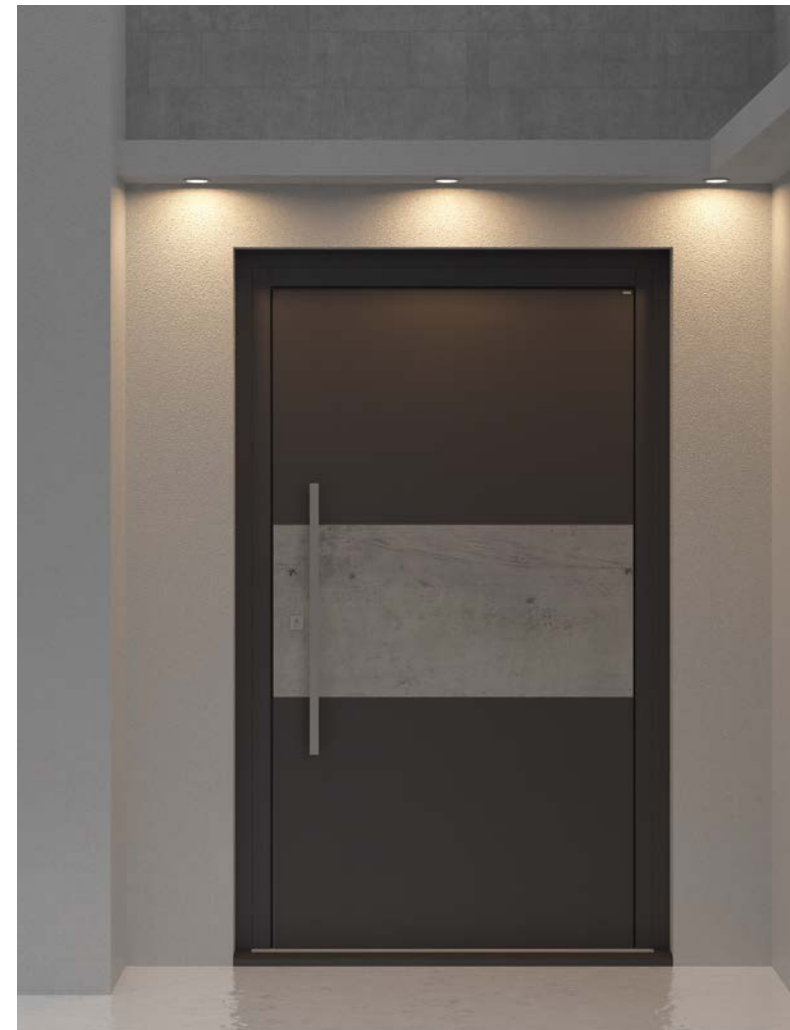

Teri

A striking design, split with a centre inlaid panel available in a range of different finishes.

Shown in both our Patina Bronze and Skyline finishes, contrast these with any matched colour; customisable down to your own aesthetic preferences.

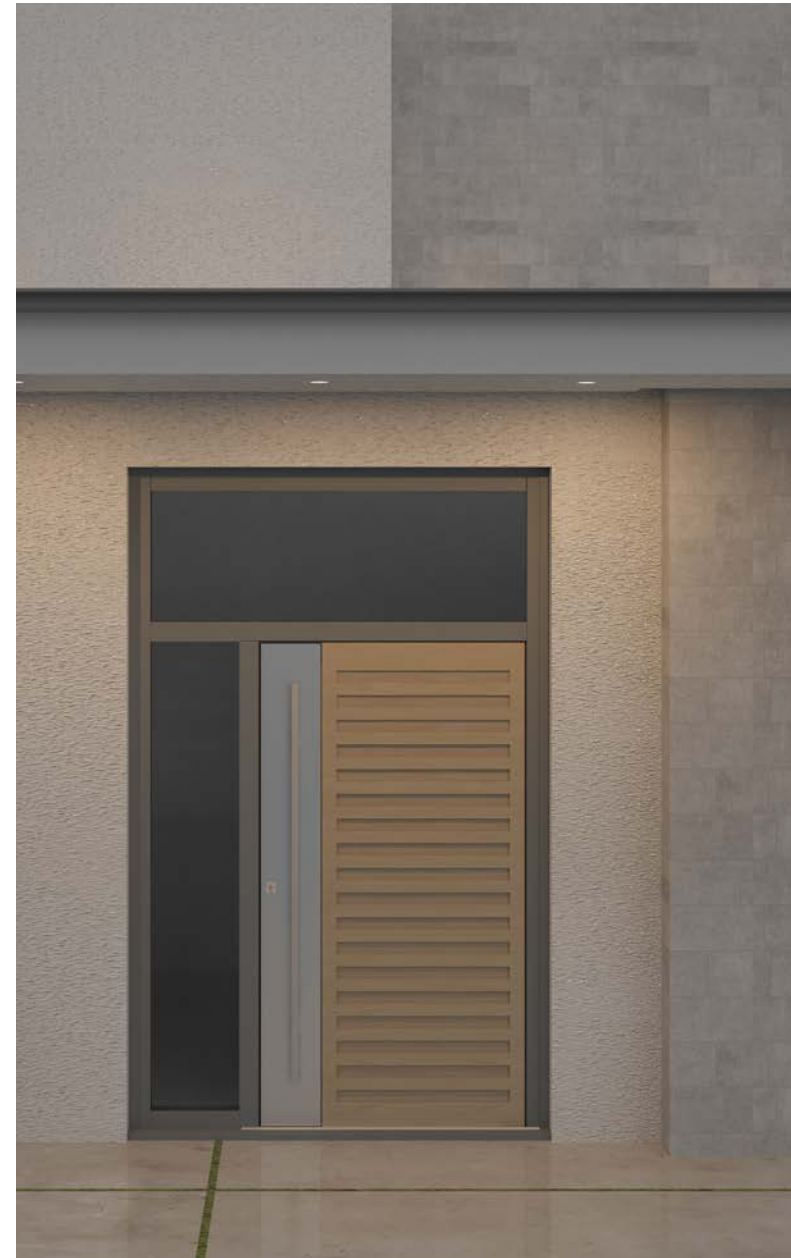

Choose from a full width or 2/3 panel.

Available in Exclusive Finish *

Como

Deep horizontal grooves create the slat formation of our Como design, compose your dream aesthetic between our range of timbers and a matched painted colour on the frame. A harmonious blend of materials and textures that make a contemporary and modern statement to any home.

Linea

The Linea collection from Deuren is a harmonious blend of materials and textures that make a contemporary and modern statement to any home. Linea has sharply carved sections that leave large bas-reliefs, a timeless look and one of Deuren's most popular designs.

Toba

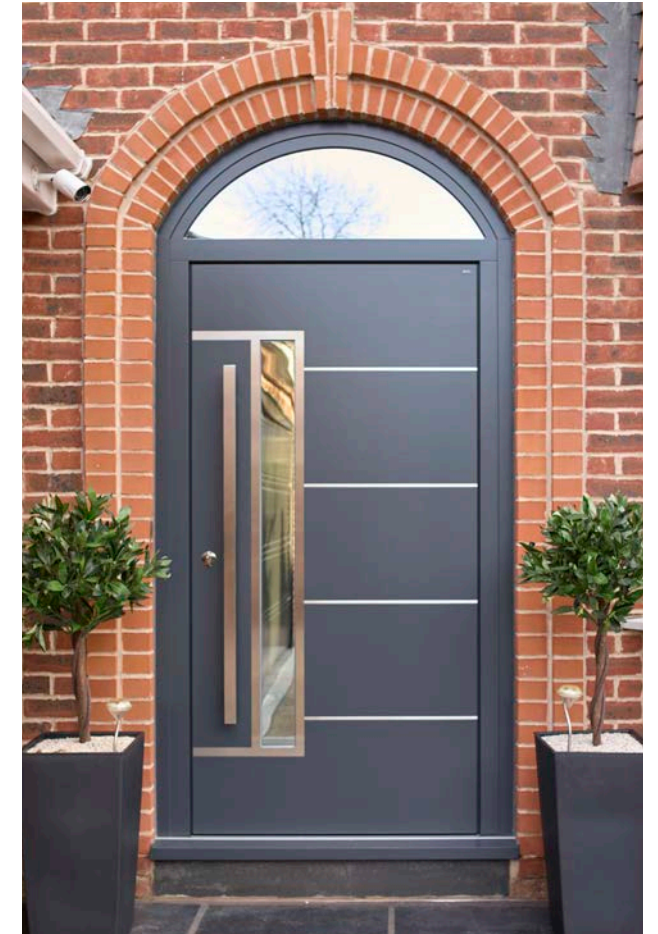

—
Randomly spaced, vertical grooves carved into the face of the door, subtle yet elegant & effective.

Pianura 2

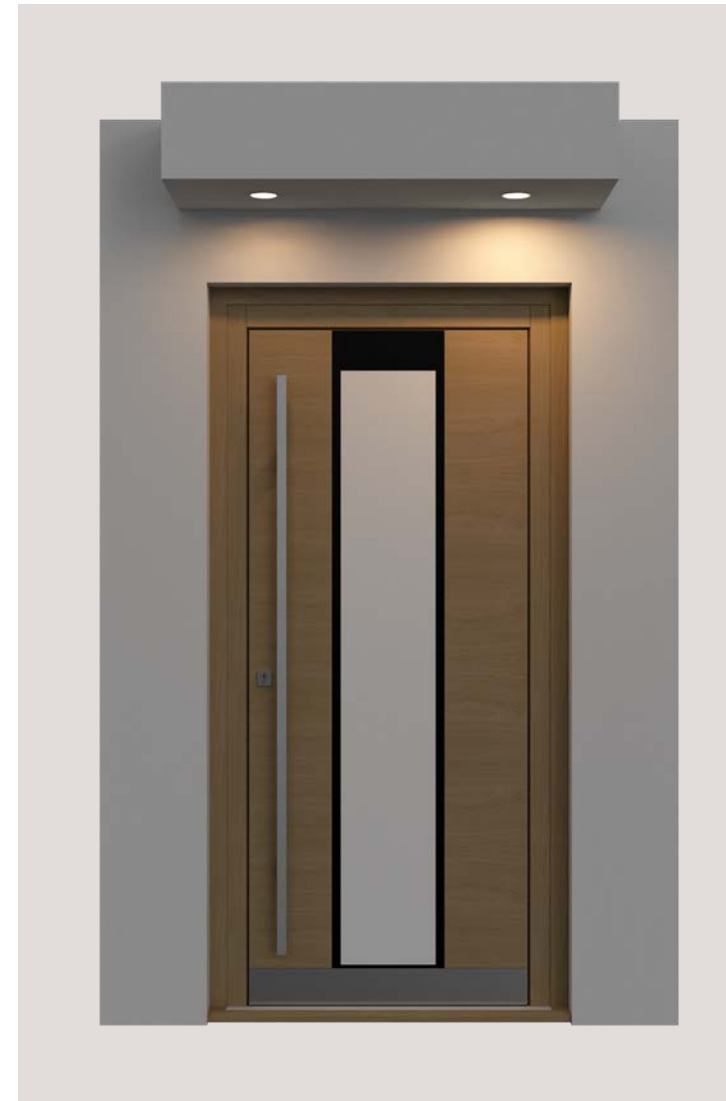

The Pianura range is a luxury collection of contemporary front doors from Deuren.

The Pianura 2 design features a vertical glazed panel that is parallel to the section that carries the handle. The sleek finish is complemented by silver accents as the standard finish. However, each door can be customised to your own specification.

Pianura 3

Vertical lines dominate the design of the Pianura 3 with smaller timber panels lining a large central glazed area that allows light to flood inside. The Pianura 3 is a modern masterpiece that sits beautifully in contemporary surroundings. Sleek silver accents and matching surround mean it's every bit sophisticated as it is impressive.

Vista

Sleek, elegant, symmetrical design with a centred glazed window leaving a plain unblemished surface. Available in our finest selection of timber finishes or any matched painted finish. Our Vista entrance doors allows extra light to flow into your house creating a pleasant atmosphere indoors, whilst also does not lack in security or thermal performance.

Georgian

Create a traditional entrance to your home with one of our Georgian entrance doors. A contemporary look whilst still remaining charmingly in keeping with your period aesthetic.

Our Finishes

The finer details of your bespoke front door ensures it's beautifully in keeping with its surroundings and gives a nod to what awaits inside. The right material choice here is important.

We use the finest-grade timber combined with expert craftsmanship to guarantee enhanced kerb appeal and a door to be proud of.

Our Factory

We pride ourselves on production transparency and a personalised customer service. Because we're based in the UK, our customers have the opportunity to visit our factory and showroom and keep in touch with us through every step of production. Deuren builds and finishes everything on site so the time taken from design to delivery is significantly reduced.

Deuren manages the whole process from design, survey to manufacturing and installation.

FAQ's

- Can your doors be made to measure?

Yes, all of our doors are made-to-measure to suit your specific requirements.

- Do you offer bespoke designs?

Yes, all Deuren entrance doors are handmade individually and if your bespoke design falls within our manufacturing capabilities, we can do it!

- What U-Value are they?

0.75 (W/m²K).

- Do you offer matching garage doors?

Yes, if your garage doors and entrance door are seen together, it's a great idea to match their design and finish.

- What are the maximum dimensions?

The maximum size for the door leaf is 2600mm (Height) and 1150mm (Width).

- Do I have to supply the measurements?

In order to calculate a price we need a rough idea of dimensions, however when you decide to proceed we will visit your site and carry out a detailed survey.

- Do you offer an installation service?

Yes, you can choose between self-installation or we can do it for you.

- Can the inside of my entrance door match my Deuren Internal Doors?

Absolutely, the inside of our entrance doors can be a different design or finish.

- Are Deuren doors actually made in the UK?

Of course, Deuren are proud members of the Made in Britain scheme.
