LUXURY INTERNAL DOORS

DESIGN. DETAIL. **DEUREN.**

At Deuren, we don't believe in compromise. We are master craftsmen who are experts in design, and everything is made in our UK factory. This means you can rest assured that your dream home will have doors of the finest quality throughout.

Our internal door sets are the most cost effective way to get bespoke luxury internal doors in your home.

You can have your doors in a wide range of woods and finishes, allowing you to match your interior décor and create a statement piece that will last long in the memories of visitors.

DESIGN & DETAIL

We marry intricate design with beautiful craftsmanship to create unique internal door sets that exceed your expectations.

We have over 25 years' experience in crafting exquisite internal doors that help complete the look of your home. Our internal door sets are handcrafted in our UK factory, and we blend modern and traditional techniques to ensure the highest quality finish.

We include a number of premium features to help lift the standard of internal doors, including hidden hinges and magnetic latches, all of which are factory routed for an outstanding finish.

Door panels, frames and architraves are made from the same batch of timber (in fact, from the same tree) for a perfect match.

Our doors are completely bespoke, allowing you to choose from a wide range of woods and finishes to create your dream doors that perfectly match your interior. We can provide doors in larger sizes than standard, and in various configurations such as hinged, pocket, double pocket and sliding.

TREM

The Trem collection is a set of classically styled doors with modern twists to cater for all tastes. Comprising of the Trem, Trem V and Trem H, this collection pulls in minimalistic style cues to create a clean cut aesthetic that is perfect for new builds and modern upgrades alike. The Trem H features simple horizontal grains, with the Trem V using vertical lines.

TREM GLAZED

The Trem Glazed is a stunning addition to the Trem collection and features a wide vertical panel that allows light to travel from one room to another. The glazed panel runs all the way to the floor; adding to the open plan feel of your home. It is ideal for modern homes looking for a more spacious feeling.

VARIO 3

The Vario 3 features a bold design of two horizontal panels split by a single vertical panel to reveal an eye catching aesthetic that is sure to impress. Mixing style cues from Trem V and Trem H, the Vario 3 blends together these grains perfectly; offering a modern alternative for any type of home.

GIO

An elegant design featuring a recessed centre panel, the Gio is perfect for homeowners aiming to create a sophisticated look. The glazed versions allow natural light to flood into rooms that need it, and a consistent style can be achieved throughout the home when paired with solid versions.

TECHNICAL OVERVIEW

FLOORING

SINGLE LEVEL FLOORING

HARD STANDING

Use when floor finishes on either side of the door are hard surfaces with exact same thicknesses e.g;

- Same timber / tile etc. at either side of door
- Timber (= thickness) & Tile (= thickness)

Installation procedure

Step 1 Lay hard floor finishes throughout area.

Step 2 Install Deuren doorset to sit directly on top of flooring (no threshold required)

SINGLE LEVEL FLOORING

CARPET UNDERCUT

Use when the same carpet or different carpets of the exact same thickness are to be used on either side of the door.

Installation procedure

Step 1 Deuren doorset installed

Step 2 Carpets fitted on either side of door. The two carpets meet directly under the door when in the closed position.

SPLIT LEVEL FLOORING

MIXED FLOOR FINISH

Use when floor finishes on either side of the door are of differing heights e.g;

- Carpet & Tile
- Carpet & Timber
- Carpet & Carpet (Different thicknesses)

Installation procedure

Step 1 Deuren doorset & threshold installed.

Step 2 Floor finishes laid to butt up to Deuren threshold at either side.
